SUMMARY

Front-end developer with 1.5 years of experience building production web apps and data-driven dashboards used by executive leadership. Contributed to the Standard Client Report, a full-scale Highcharts reporting platform presented live to the CAO. Skilled in JavaScript, AngularJS, React, and RESTful API integration, with an analytical mindset that bridges data and UI. Bilingual English/Spanish. Targeting Front-End or Software Developer roles, remote preferred.

TECHNICAL SKILLS

Front-End: JavaScript, HTML5, CSS3 (Flexbox, Grid), AngularJS, React, Vue.js, Bootstrap, Responsive Design, Component-Based Architecture, Cross-Browser Compatibility

Data: SQL, PostgreSQL, Power BI, Highcharts, Microsoft Excel (Pivot Tables, VLOOKUP, XLOOKUP), Python

Tools: Git, GitHub, Visual Studio Code, Visual Studio 2022, RESTful API Integration

Languages: English Native/Bilingual · Spanish Native/Bilingual

EXPERIENCE

Linebarger Goggan Blair & Sampson

San Antonio, TX

Software Developer

Feb 2025 – Present

- Designed and built responsive, component-based web applications in AngularJS, JavaScript, and Bootstrap used daily by contract managers and executive leadership
- Served as the front-end developer on the Standard Client Report responsible for UI, functionality, and reliability, presenting live to the CAO and senior leadership
- Built an interactive Highcharts dashboard with dynamic drill-downs, RBAC, and real-time API data — column, table, and pie charts comparing current month vs. contract-to-date performance
- Collaborated with backend developers in an Agile environment to integrate RESTful APIs surfacing live client data and dynamic updates

IT Production Analyst

Aug 2024 – Feb 2025

- Managed large-scale database operations uploading, validating, and organizing 10,000+ files per day across multiple contract accounts, maintaining 99%+ file accuracy
- Coordinated with stakeholders to ensure files were uploaded accurately and on schedule, resolving discrepancies before they reached downstream reporting
- Supported data quality across the production pipeline identifying and correcting errors before they affected downstream reporting and data integrity
- Created and processed client invoices and collaborated with the letters team to configure letter templates sent directly to the print shop

TELUS International AI Data Solutions

Remote

Data Analyst (English & Spanish)

Mar 2024 – Aug 2024

- Evaluated search relevance and data quality for AI training datasets across English and Spanish content using standardized QA guidelines
- Assessed geographic and informational data at local and national levels to support the reliability of AI and search relevance systems
- Reviewed and scored content outputs to improve search quality and AI model performance, identifying patterns across multilingual datasets

PROJECTS

Standard Client Report *AngularJS* · *Highcharts* · *RESTful API* · *RBAC*

Linebarger Production

- Built a full-scale enterprise data visualization platform from scratch as the sole front-end developer responsible for UI, functionality, and reliability
- Developed Highcharts dashboard with year-over-year account health, dynamic drill-downs, and column/table/pie charts comparing current month vs. contract-to-date performance
- Implemented RBAC and presented the finished application live to the CAO and senior leadership

Portfolio Website *React* · *JavaScript* · *CSS3* · *Framer Motion* · *Vercel*

Portfolio

- Architected and deployed a fully responsive personal portfolio in React with component-based architecture, mobile-first design, and Framer Motion animations
- Built custom hamburger menu, dual resume download system, deployed via GitHub and Vercel at www.sarahmhalverson.com

EDUCATION

B.S. Computer Science, Data Science Concentration

University of Texas at San Antonio

Dean's List (Dec 2023) · President's List (Dec 2022) · Honor Roll (May 2023, May 2021, Dec 2020) · College of Sciences
